

LOGISTICS AND SUPPLY CHAIN MANAGEMENT CAPABILITY STATEMENT

Worldwide Business Consulting LLC (WBC) offers an array of consulting services in logistics and supply chain management. Our consultants have over 25 years of logistics and supply chain management experience working for U.S. and foreign governments and private sector entities. Our consultants are more than capable of offering your organization with solutions tailored to your situation. We partner with your team and establish best practices that are compliant, customer focused, cost effective, and competitive. We consult with you...for you.

Core Competencies

Providing consulting in the delivery of enhanced customer and economic value through synchronized management of the flow of physical goods and associated information from sourcing to consumption. This includes integration—not only of the entities within the organization, but also of the organizations external partners. Our logistics and supply chain management consultants help analyze, research, design, support and implement solutions in the areas of:

- Logistics Planning
- Logistics Management
- Sourcing
- Fulfillment

Logistics Planning

Provide logistics planning services that focus on the flow of things between the point of origin and the point of consumption to meet requirements of customers or corporations

The resources being used planning logistics can include physical items such as food, materials, animals, equipment, and liquids; as well as abstract items, such as time and information

The logistics planning involves the integration of information flow, material handling, production, packaging, inventory, transportation, warehousing, and often security

Logistics management

Our consultants assist with implementing management plans controls the efficient, effective forward, and reverse flow and storage of goods, services, and related information between the point of origin and the point of consumption to meet customer's requirements.

Sourcing Support

Provides sourcing analysis support of what an organization buys, from whom, at what price and at what volume. We place emphasis on the entire life-cycle of a product, not just its initial purchase price.

Key Sourcing Benefits

- Increase savings from your sourcing processes by sourcing more effectively
- Improve the consistency of your sourcing activities and ensure process standardization
- Gain visibility into sourcing activities: past, present and future
- Drive efficiencies in processing time—move from weeks to days
- Better manage the entire source-to-pay process

Fulfillment

Provides consulting services on when an order for a product is received—the “fulfillment” of the order. This includes warehousing, finding the item ordered, packaging it, and shipping it to the right address.

Differentiators

Senior Executive Logistics professional with 25 + years of expertise in all functional areas of Logistics and Supply Chain Management. Experience working logistics and supply chain management with clients in the military, US and foreign governments, and private industry

Past Performance
